

Ash, Vampire Love

Soft cold fantasy vampire love
A carnal sacrifice of a virgin dove
In the midnight cold i sucked your blood
Innocence drowning in the flood

Tonight i want you in my arms
It's not the end girl
Tonight i'll place you safe from harm
It's not the end girl
Yeah
Oohh

Victorian repression I fantasise
Chromium lips and metallic eyes
You're a verse call girl death defies
Virginal sinners tell sadistic lies

Tonight i want you in my arms
It's not the end girl
Tonight i'll place you safe from harm
It's not the end girl

Soul searching on your knees
The time is always now for eternity
Black death market uniform
Submit to my kiss and i'll be reformed
Yeah yeah

Soft cold fantasy vampire love
A right bombshell, she's the god above
Give me cardinal sins since
Vision that i'm dead

Tonight i want you in my arms
It's not the end girl
Tonight i'll place you safe from harm
It's not the end girl

Tonight i want you in my arms
It's not the end girl
Tonight i need to feel your charms
It's not the end girl
It's not the end girl (It's not the end girl)
It's not the end girl (It's not the end girl)
It's not the end girl (It's not the end girl)
