

# Ashanti, Falling For You

I'm falling for you  
Falling for you

I bet you think I'd never find another  
Think I'd lay around crying 'bout you  
I bet you think that I would sit around  
While you run around tryna find you  
I bet ya  
I bet you wish you had that chance  
To play with my heart again  
Can I keep it real with you?

I can't do nothing but be real with you  
I just don't feel the same, so over you  
No more falling for you  
I'm so over falling for you  
No more falling for you  
I'm so over falling for you (told myself)  
No more falling for you  
I'm so over falling for you (ain't no more)  
No more falling for you  
I'm so over falling for you

No more falling for your games  
I know you ain't gon' change  
I ain't tryna let my guard down  
You gotta know I'm still in pain  
And it's driving me insane  
I can't have you how I want  
How did it get this bad  
From making me laugh to making me sad  
So much when you think about it  
Not stuck in the past you put on a mask  
I'm not turning back  
You came in now you walking out

I can't do nothing but be real with you  
I just don't feel the same, so over you  
No more falling for you  
I'm so over falling for you  
No more falling for you  
I'm so over falling for you (told myself)  
No more falling for you  
I'm so over falling for you (ain't no more)  
No more falling for you  
I'm so over falling for you

Said I ain't gone fall for you no more  
And I ain't gone cry for you no more  
And I ain't gone lie to myself  
Wishing you could change looking in my face  
And you dead wrong  
And ain't no more truth in your lying  
And ain't no more you on my body  
'Cuz ain't no more room for this heartache  
I gotta remove you I'm tired (of trying)

I can't do nothing but be real with you  
I just don't feel the same, so over you  
No more falling for you  
I'm so over falling for you  
No more falling for you  
I'm so over falling for you (told myself)  
No more falling for you

I'm so over falling for you (ain't no more)  
No more falling for you  
I'm so over falling for you
