

Ashanti, I've Got What You Need

I'm that girl (oohooh)
Come on baby
I'm that girl
Don't stop now, straight to the top now(I'm that girl)
Cause I'm the one who understands
How to treat a man
I've got what you need

Dear honey
Hope you thinking of me
All in a days work how to make you love me
Orange juice with bubbles here
Let me toast ya
Together we, just like my moses
Hot like testaroses
Homey i'm still that girl

I'm the one that made you believe again
More than your girl will even see
i wanna make love listening to your
I wanna be down for life
baby it aint even about the line tonight

I've got what you need
say you need a girl that's just like me
who can fullfill your every dream
Ready to start a family
cause i'm the one who understands, how to treat man
I've got what you need

I know everything about you
And all the thing that you've gone through
I'm the love to make your heart stop beating
Will you be the one to make me breath again?

When times get hard, i will cry with you, die with you
And there's nothing that i wouldn't do, for you
I want us to shine together baby
I wanna be down for life
Baby it aint even about the line tonight

Boy your always on my mind
Stop fooling around were waisting time
Make me official in your life
Cause i dont ever wanna leave
And I want you to see, this is what you need

Say you need a girl that's just like me
Who can fullfill your every dream
Ready to start a family
cause i'm the one who understands, how to treat man
I've got what you need

I've got what you needs
say you need a girl that's just like me
who can fullfill your every dream
Ready to start a family
cause i'm the one who understands, how to treat man
I've got what you need

you got what i want (you got what i want)
Let's make that sacrefise (Let's make that sacrefise)

I've got what you need

say you need a girl that's just like me
who can fulfill your every dream
Ready to start a family
cause i'm the one who understands, how to treat man
I've got what you need
