

Ashanti, Is Your Love All For Me

Verse:

You may think you're not the one for me
But deep inside I feel it all for me
I know and I wanna go but if you
Need my love then I'll show you everything
Tonight with my heart and my love

Pre-chorus/ chorus:

Don't even wanna try and forget you
You know I wanna be with you
I'm all for you
It's your love
That keeps my heart flowing
Thank you for keeping me wanting {you}

Verse:

When I'm around you {boy} it drives me crazy
I wanna tell you something, you're my baby
But I want you so bad it doesn't matter what you do
In my heart I know you; you should feel the way I do
But baby you drive me crazy, I wanna be your honey
It's all for me (can it be without me?)

Pre-chorus/ chorus:

Don't even wanna try and forget you
You know I wanna be with you
I'm all for you
It's your love
That keeps my heart flowing
Thank you for keeping me wanting {you}

Verse:

I wouldn't ever
Do anything to hurt you
[boy] you know it cos I'm
So deep and really feeling you
I wanna be your girl
Even when you need me in your world

Chorus x2

Bridge:

Don't you understand me?
Boy I really am feeling you
You make me feel away I never knew
I thought that once it was not you
But now I wanna be with you {baby I do}
