

Ashlee Simpson, Do ya love me

Ashlee Simpson

Miscellaneous

Do ya love me

Do ya love me o do ya love me

I say so

Do ya need me o do ya need me

God I hope

I got this feelin deep inside

That somewhere somehow you've passed me by

Im keepin my finger on it but

The more that I see you the more that I know

:Chorous:

Everywhere you go is everywhere I've been

you better show my sentences before they begin and I know that look in your eyes its like I've seen

You make me feel so o ya make me feel so beautiful

It doesnt matter no it never matters we're out of hope

we can make hours into years wherever you go your always here its like I've known you from before

:Chorous:

Im breathin you in Im breathin you out

Your all around me no matter what we do I wanna spend my life with you only you

do ya love me o do ya love me say ya love me o say you love me!

:CHorous:

and I know that look in your eyes its like I've seen you before about a million times in another life in

do ya love me o say ya love me
