

Ashlee Simpson, In Another Life

Do you love me oh do you love me
I say so
Do you need me oh do you need me
God I hope
I get this feeling deep inside
That somewhere somehow you passed me by
I can't put my finger on it but
The more that I see you the more that I know
Everywhere you go is everywhere I've been
You finish all my sentences before they begin

And I know that look in your eyes
It's like I've seen you before about a million times
In another life, in another life maybe, in another life you must've been mine

You make me feel so
You make me feel so
Beautiful
It doesn't matter
No it never matters if we're out or home
We can make hours into years
Wherever you go you're always here
It's like I've known you from before
But I'm just so happy you walked through my door
I'm breathing you in
I'm breathing you out
You're all around me
No matter what we do
I wanna spend my life with you
Only you
Do you love me oh do you love me
Say you love me oh say you love me

And I know that look in your eyes
It's like I've seen you before about a million times
In another life, in another life maybe, in another life you must've been mine

Do you love me oh say you love me
