You and Me

Did you know that when it's late at night

I think of the days we've spent together

I think of you and me huggin and kissin and laughing side by side

You and me, you and me, you and me are over!!

Don't lie bout her I saw you 2 together

Why'd you tell me that she was just your study pal

Baby you and me, you and me are over!

Baby I loved you so much but the reason why I really wanted to talk to you was just to let you know

YOu and me, baby you and me, o baby you and me are over!

You better move, get outta my way before I hurt you

Why'd you have to lie about her

Why couldn't tell me about her

Baby o how I loved you

But baby, now I hate you!!!

O Honey you and me, you and me, you and me are over
