

# Ashley MacIsaac, I Don't Need This

So many jobs to do today but only time for three  
And I find only time to time that I got time for me  
Done so much runnin' I can see myself comin' round  
The circle that I started in  
Won't somebody give me a break?

Seven things that I forgot I really should have done  
I'm not going nowhere till I concentrate on one  
I can't smell the roses when we're grinding our noses  
When we joke all 9 to 5  
Won't somebody give me a break?  
Oh I had all I can take

Chorus

Oh I just can't see the sun  
Feels like I'm the only one  
Always getting through somehow  
But I don't need this  
I don't need this right now

Dreamy dream that's all I wish for is a money tree  
I pay my dues I pay my rent and have some left for me  
It's gotta be a crime to work so hard just to pay off the  
Balance of your MasterCard  
There's gotta be some mistake

I get you what I promised you when I get white and old  
But now I'm surfing, skating, singing close to overload  
I could do without your verbal and I'm meeting someone  
Herbal and you better not bring me tea  
Won't somebody give me a break?  
A break for heaven's sake.

Chorus
