

Ashley Tisdale, Be Good to Me (Radio Version)

[Ashley Tisdale]

Can you be good to me
Be good be good be good be good
Can you be good to me

Everyday is getting worse
Do the same things and it hurts
I don't know if I should cry
All that I know is that I'm trying

I wanna believe in you
I wanna believe in you
But you make it so hard to do

What's the point of making plans
You break all the ones we have
I don't know where we went wrong
Because we used to be so strong

I wanna believe in you
I wanna believe in you
So why can't you be
Be good to me

I don't ask for much
All I want is love
Someone to see
That's all I need
Somebody to be
Somebody to be
Somebody to be
Good to me
Good to me
Can you be good to me
Good to me please

I used to think I had it all
Then we day we hit a wall
I had hoped you were the one
Where's my dream
Where has it gone

I wanted to be with you
Forever just me and you
So why can't you be
Be good to me

I don't ask for much
All I want is love
Someone to see
That's all I need
Somebody to be
Somebody to be
Somebody to be
Good to me
Good to me
Can you be good to me
Good to me please

[David Jassy]

What it is
What's good
I'll make you shine like a star from Hollywood
I'll be your night in shining armor

Your prince in this saga
Never cash with me I'm bringing drama
You wanted love like monopoly
Smile like you look like you want a lot of me
And I will be good to you a while
Miss Ashley Tisdale

[Ashley Tisdale]
Where do I go from here
You've got in under my skin
And I don't know how to get out
Of this place that I'm in

I don't ask for much
All I want is love
Someone to see
That's all I need
Somebody to be
Somebody to be
Somebody to be
Good to me
Good to me
Can you be good to me
Good to me please

I don't ask for much
All I want is love
Someone to see
That's all I need
Somebody to be
Somebody to be
Somebody to be
Good to me
Good to me
Can you be good to me
Good to me please

Be good be good be good be good
Can you be good to me
Be good be good be good be good
Can you be good to me good to me please
