

Asia Ash, Pump It

Hey Boy
The lady has arrived
Won't you give me some?
tricks, that you have done for years

I've be wondering how it feels since you came
Come on DJ play the music, let me feel the base
It feel's like I'm hypnotize, it's running through my vain
That's the way it should be

Pump it like a drug
Pump it like a drug
Pump it like a drug
Pump it like a drug

Hey Boy
The lady has arrived
are you ready for?
sounds that's really drives you wild

I've be wondering how it feels since you came
Come on DJ play the music, let me feel the base
It feel's like I'm hypnotize, it's running through my vain
That's the way it should be

Pump it like a drug
Pump it like a drug
Pump it like a drug
Pump it like a drug
