

Asia, Back In Town

(Downes/Payne)

Wheels turn - smoke rise
Chrome wings - low ride
Freeway - red line
To city lights electric I glide
If there's escape from your illusion
You gotta break the whole constitution

Concrete - touch sky
Main street - dogs lie
Steel bird - black tie
Is this what they call the freedom you buy?
Look at him behind the delusion
All you hear is the voice of confusion

The bad boy's back
The bad boy's back in town
The bad boy's back
Don't you shoot him down

Wheels spin - ace high
No win - no life
One world - truth lies
Love's just a word on a red neon sign
If there's escape from the conclusion
You gotta shake the whole institution

If there's escape from your illusion
You gotta break the whole constitution
