

# Asia, Sleeping Giant / No Way Back / Reprise

(No way back)  
(No way back)  
(No way back)  
(No way back)

Push forward again, I reach the  
Point of zero return  
It's the end of the book  
No more pages to turn

A hell of a deal  
To keep what I feel inside  
There's nowhere to run  
And there's nowhere to hide

And there's no way back (no way back)  
There's no way back (no way back)  
There's no way back (no way back)  
There's no way back (no way back)

A progressive disease  
Takes me out of the door  
That's when I grab the keys  
And I slam my foot to the floor

Setp on the gas  
Smash through the barricade  
I'm closing my eyes  
'Cause I don't wanna see

'Cause there's no way back

(No way back)  
No way back (no way back)  
There's no way back (no way back)  
And there's no way back (no way back)

Keep on working the room  
And the end is in sight  
Something unknown propels me now  
Leading me to the light

I got to be free  
It's life on the edge for me  
The harder it gets  
The harder I try

And there's no way back (no way back)  
There's no way back (no way back)  
No way back (no way back)  
And there's no way back (no way back)

You're going too far  
Way over the line  
You're raising the bar  
There'll be no soft landing this time

We stand on the edge  
This time is sink or swim  
We're spreading our wings  
And we're learning to fly

And there's no way back

(No way back)  
No way back (no way back)  
No way back (no way back)  
I said there's no way back (no way back)  
Oo, there's no way back (no way back)  
There's no way back (no way back)  
There's no way back (no way back)  
There's no way back (no way back)  
There's gotta be something (no way back)  
It's life on the edge for me (no way back)  
And there's no way back (no way back)  
There's no way back (no way back)  
There's no way back (no way back)  
There's no way back (no way back)
