

# Asia, What About Love?

(Payne/Downes)

It crawls inside you  
Like a strange disease  
One time the giver  
Next time the thief  
I know what you know  
So I won't let this go

You choose your brother  
If he looks the same  
You dirty white boy  
It's all for gain  
But I know what you know  
So I won't let this go

What about love?  
And the human race  
What about love?  
It's a different face  
What about love?  
Why can't we embrace?  
I've got to know  
I want to know

The start of reason  
Is the end of hate  
Progressive healing  
For the corporate  
But I know what you know  
So I won't let this go

What about love?  
And the human race  
What about love?  
It's a different face  
What about love?  
Why can't we embrace?  
I've got to know  
What about love?  
And the human race  
What about love?  
It's a different face  
What about love?  
It's a big disgrace  
I've got to know  
I want to know
