Asian Dub Foundation, Flyover

Flyover Flyover Step on the gas kick down the accelerator Flyover flyover

Don't wanna get banged up don't wanna get Captured

Mr. Transmetropolitan get out of my way

There ain't enough hours in my day

The city's on fire in the pouring rain

Steam is rising faster than a runaway train

In the battle on the streets you fight computers And Receipts

In a bloody turf war between Prada Gucci

A killer behind the wheel who ain't never going home

Skidding and sliding outside the transit zone

Flyover Flyover step on the gas kick down the accelerator

Flyover Flyover Don't wanna get banged up don't wanna get captured

Flyover Flyover step on the gas kick down the accelerator

Flyover Flyover Dont wanna get banged up don't wanna get captured

Speedin through the invisible 20 percent

Watch the race between the guilty and the Innocent

Rubbing shoulders with the superclass engines

Burnin up the hoorahs in South Kensington

Choking up london firing smoke into the air

Some days you'd rather be anywhere but here

Choking up london firing smoke into the air

Some days you'd rather be anywhere but here

Flyover Flyover step on the gas kick down the accelerator

Flyover Flyover Don't wanna get banged up don't wanna get captured

The City is blind but it will not slow down

The drive to destruction is the heaviest sound

but switch to the underground and it's another story

as the sound surrounds you with positive energy

as the bass line pumps with creativity

you know this is the place to be You know it's always been the place to be

You know it's always been the place to be you know this is the place to be

Tell em tell em London city

Flyover Flyover Step on the gas kick down the accelerator Flyover Flyover

Don't wanna get banged up don't wanna get captured

Don't wanna be down in the tube station at the stroke of midnight

You only wanna go where there's plenty of light

Don't ask for directions man they tell ya the wrong way

You know there's never time

You know there's never enough hours in the day

The City is blind but it will not slow down The drive to destruction is the heaviest sound
