Step forward Youth At the moment of truth  
Don't be distracted don't be the fool  
Step forward youth At the moment of truth  
Go beyond the senses Get a clear view  
When you're Deafened by the sound of betrayal  
And there's no one left to trust  
Falling off the end of the scale  
You carry on because you must  
when you're down to the last of your senses  
The pain is blocking out all thought  
Somehow you gotta pull yourself together  
you gotta make good all things you been taught  
When you're Deafened by the sound of betrayal  
And there's no one left to trust  
Falling off the end of the scale  
You carry on because you must  
Just when you think it's all over  
Just when they think you're falling back in line  
maybe just a small word to a young child  
Maybe just a moment of peace In your mind  
Step forward Youth At the moment of truth  
Don't be distracted don't be the fool Step forward youth  
At the moment of truth Go beyond the senses Get a clear view  
Forward youth Backward never Mo' Fire
