Step forward Youth At the moment of truth
Don't be distracted don't be the fool
Step forward youth At the moment of truth
Go beyond the senses Get a clear view
When you're Deafened by the sound of betrayal
And there's no one left to trust
Falling off the end of the scale
You carry on because you must
when you're down to the last of your senses
The pain is blocking out all thought
Somehow you gotta pull yourself together
you gotta make good all things you been taught
When you're Deafened by the sound of betrayal
And there's no one left to trust
Falling off the end of the scale
You carry on because you must
Just when you think it's all over
Just when they think you're falling back in line
maybe just a small word to a young child
Maybe just a moment of peace In your mind
Step forward Youth At the moment of truth
Don't be distracted don't be the fool Step forward youth
At the moment of truth Go beyond the senses Get a clear view
Forward youth Backward never Mo' Fire
