

# Asian Dub Foundation, Tank

The wheels of the tank keep turning round and round  
How many megatons will it take To make them turn around  
The wheels of the tank keep turning round and round  
How many megatons will it take To make them turn around  
every man is left behind everyman has lost his mind  
Exocets and dollar signs Bounce off the shell of me tank  
Another missile flying high snaking cross the desert sky  
Oilmen in their jeeps ride by speeding to the bank  
the wheels of the tank keep turning round and round  
How many megatons it take to make them Turnaround  
Tombstone Cops with Gripping Hands  
Playing Cowboys in the sand  
Nothing ever goes as planned deep inside my tank  
Shell-suited booted goggles flash  
Tripping out under the trax  
Buffalow soldiers high on crack  
Smokin in me tank  
Fox by foxed news my head is confused  
Sometimes I think that I'm being used  
Suppress all thoughts automatic mode  
So I can't see the ghosts crowding the road  
The wheels of the tank keep turning round and round  
How many megatons will it take to make them turnaround  
Awaken Mesopotamia  
Never left No Hope City, Georgia  
The world is Shitsville, Arizona  
Death Metal getting louder and louder  
Pumping in me tank
