

Asian Dub Foundation, The Judgement

Written by: Das, Pandit, Savale, Tailor, Zaman

Read up your history and then you'll reach your destination
Teach up the youth and then you'll find the solution
Education is the key
Will be for eternity
Come focus upon dis and then you will see

We've come so far so fast from what they call the past
Laying down foundations and we know they're gonna last
Present and the future we will never fall
Realise united we stand and divided we fall

This is the wall of community sound
We're comin to get you comin to track you down
No escapin from this militant scientist
Suffer no defeat is upon top of the list
Hope and glory the myth of the Labour Tories
We're comin down and tellin you a different story
Any time when we come positive and confident
And them coulda never escape this ya judgement
