

Aslan Faction, Hell On Earth

Tell tale signs of disintegration
High rise down size travesty
The sense of monetary inflation
Drain our pockets and sanity

Migratory fiscal being
Starving to death for our daily bread
They want a war to jump start the economy
Because they don't need to feed the dead

"We have become the destroyer of worlds"
We have become the gods of destruction
We have desired the warmth of spilled blood
We have been numbed to over consumption

Hell On Earth, Hell On Earth

What we have is hell on earth
What we need is to stop the emotion
What they want is hell on earth
Fat cat kickbacks, white collar devotion
