## Aslan Faction, Hell On Earth

Tell tale signs of disintegration High rise down size travesty The sense of monetary inflation Drain our pockets and sanity

Migratory fiscal being Starving to death for our daily bread They want a war to jump start the economy Because they don't need to feed the dead

"We have become the destroyer of worlds" We have become the gods of destruction We have desired the warmth of spilled blood We have been numbed to over consumption

Hell On Earth, Hell On Earth

What we have is hell on earth
What we need is to stop the emotion
What they want is hell on earth
Fat cat kickbacks, white collar devotion
