Way Down Texas Way (1987)

Adios goodbye amigo I am leaving you today

Aint nobody round this town gonna miss me anyway

This old money makings taken all the time I have to play

Mama, hush your mouth I headed south way down Texas way

Way down Texas way they play good music every night

And the dance hall rings with laughter till the early morning light

When them cowboys get through picking theres not much thats left to say

But you can really have a good time honey way down Texas way

The road of life is paved with good intentions I am told

So I best be on my way now or I may not ever go

Aint no need to be a-begging me to stay just one more day

This old wild goose is cutting loose way down Texas way

Way down Texas way they play fiddle music every night

And the dance hall rings with laughter till the early morning light

When them cowboys get through picking theres not much thats left to say

But you can really have a good time sugar way down Texas way

Way down Texas way
