

# Asobi Seksu, Sing Tomorrow's Praise

You've left without making a sound  
Lay your heavy hammer down  
Forward motion's not a simple way out

Time with vicious things waiting  
for future's ... praise

Trees bend down and sway  
Because leaves were falling anyway

And there's no time to walk away from this day  
Blowing reasons fade.

Chase...  
Whisper words of faith that...

Time with vicious things waiting  
for future's ... praise

Escape myself for one day  
I'm not one for taking blame

And the ... burned me out of this daze  
Sing tomorrow's praise

Every day whispered words of faith that...
