

# Asrai, Touch In The Dark

See the reach of a child in you  
From a touch in the dark  
Among the shades of blue  
From a touch in the dark

A hand, a name, a queen in truth  
A balanced word in a new song  
No sound from this place belongs  
Among the shades of blue

See the reach of a child in you  
From a touch in the dark  
Among the shades of blue  
From a touch in the dark

And through the fields of flow  
And meaningless sentence  
From a touch in the dark

For all waht happened since  
In these mianingless ways

A hand, a name, a queen in truth  
A balanced word in a new song  
No sound from this place belongs  
Among the shades of blue

A touch in the dark

A hand, a name, a queen in truth  
A balanced word in a new song  
No sound from this place belongs  
Among the shades of blue

A touch in the dark
