

# Asteria, See You In Virginia

We spend our nights on kerosene  
Singing and slipping off our chairs  
My eyes roll back  
The ceiling reminds me of the floor  
Pull the shades and dim the lights  
It's never too early to make today seem just like midnight  
And in case we never said it  
Understand it's cause we miss you  
Yeah we miss you  
We're waiting on the weekends  
Trying so hard to find something to replace you  
We can't replace you  
Sleepless with bed rest my eyes won't shut  
I'll see you in virginia  
Till then keep in touch  
Sleepless with bed rest my eyes won't shut  
I'll see you in virginia  
Till then keep in touch  
This bottles almost gone  
But the conversation won't stop  
And this musics gonna play till we turn it off  
Turn it up  
Get off the floor  
Here's to honor  
We'll call it out  
Pretending that summer will never end  
Here's to honor  
We'll call it out  
Pretending that summer will never end
