

Asteria, You're So Scene

So take your chances
Drink to these past romances
Cheers for your love-lost past
You're sipping your hurt away
These boys go crazy for ya
Your lipsticks getting darker
Tears run black from eyeliner
Your pain can't be made up
And I'll do anything you say
You're prom queen,
A drama queen
You're so scene,
You're overrated
Fake black hair,
You think I care
You're so made up,
You're overrated
Lies always come back to ya
I always knew you'd dig a
A hole to drown yourself in
Your tears will fill it up
Dig deeper try to escape
Try to reduce the pressure
Today you'll finally taste the
Medicine you fed so much
And I did everything you said
You're prom queen
A drama queen
You're so scene
You're overrated
Fake black hair
You think I care
You're so made up
You're overrated
You're prom queen,
A drama queen,
You're so scene,
You're overrated
Fake black hair
You think I care
You're so made up
You're overrated
You're prom queen
A drama queen
You're so scene
You're overrated
Fake black hair
You think I care
You're so made up
You're overrated
