

# Astrid Van Der Veen, I Guess

I guess I made a real fool of myself  
I wonder what you're thinking  
I want to do it all over again  
Have a brand new chance  
Which I wouldn't blow, like this one

I admit, you're all I'm thinking of  
When someone talks of love, I feel it too  
Your reaction means a lot to me  
It could be over just like this  
That's scaring me to death

Baby, you're always on my mind  
Give me a fair chance to be with you  
Baby, you're always in my heart  
Give me a fair chance, one more chance  
And I'll smile

I must be crazy to do this  
Well you know, love is blind  
If it won't work out like I wish  
I'll just hang on to the thought  
That I've had a wonderful time

Baby, you're always on my mind  
Give me a fair chance to be with you  
Baby, you're always in my heart  
Give me a fair chance, one more chance  
And I'll smile

You know what, you maybe even like me  
If you know my inside  
Maybe all your dreams will come true  
If you give me one more chance  
Baby, that's all I ask

Baby, you're always on my mind  
Give me a fair chance to be with you  
Baby, you're always in my heart  
Give me a fair chance, one more chance  
And I'll smile

Yeah  
One more chance  
Yeah  
One more chance  
One chance
