

# Astrid Van Der Veen, My Crow

All these countless lifetimes  
Where you're more to me than life  
All these dreams of soulfly  
We'll be together when it's time

I don't want to miss you  
And I will find you in each life  
All our love together  
Is breaking every rule of life

When we would die  
It wouldn't matter  
Because we'll someday be together  
Forever  
My crow

All these nights of lightness  
Where you're too beautiful to live  
You should be in heaven  
Where I'll take you when it's time

When we would die  
It wouldn't matter  
Because we'll someday be together  
Forever  
My crow

My crow  
We'll fly forever  
You can imagine  
Only the two of us  
This is no dream  
This is our reality  
Forever  
My crow

When we would die  
It wouldn't matter  
Because we'll someday be together  
Forever  
My crow
