

Astrud Gilberto, Inner Song

I would have given it all to you
My love for you
Was always there from the very start
And every time you said you loved me too
I wish I knew
It didn't mean much at all
Just a game that you played with my heart

I'm not naive the way you see
I'm a believer, 'cause I chose to be
And when somebody comes along
And tries to break my heart
It only makes it strong

Our inner song was in a different key
So, let it be...
There'll be plenty of songs left for you and me
I hope you'll find the perfect score for you
And as for me
I will just keep on going
'Cause Love is still glowing for me

Our inner song was in a different key
So, let it be...
There'll be plenty of songs left for you and me
I hope you'll find the perfect score for you
And as for me
I will just keep on going
'Cause Love is still glowing for me
