

Aswad, Ways Of The Lord

The ways of the Lord are straight and narrow
But the ways of the world are far and wide
In dispensation the right thing is so hard to do now
While wickedness is all around
So what's the use of all the fuss and fight
What about the basic human rights
There's enough for one and all
Living the ways of the Lord every day and night
If we lived together this life would be much better
If we loved one another we all could be so free
The life we live, the way we handle ourselves
Remember Lucifer is around
So what's the use of all the fuss and fight
What about the basic human rights
That's enough for one and all
Living the ways of the Lord every day and night
The poor baby's hungry, no food can they find
Mother is going out of her mind
Father has upped and gone away
He has fallen into crime
The poor baby's hungry, no food can they find
Mother is going, mother is going out of her mind
