

# At The Drive-In, Pattern Against User

The proposition  
Handcuffed to the park bench  
Hypodermic people poking  
Fun at the living  
It takes the weight out of this  
It takes the weight out of living  
Are we just infants that are ripe for the training  
The opposition  
Can't feel the tentacle reach  
Suction cup the numb arms of the elderly  
Please lift the weight out of this  
Please take the weight out of living  
Let's let these walkers trip on  
Endless proof

Pattern against user - dilated  
Bastard waiting for nothing  
Circus carny guarding  
The gates of heaven  
Like stuck in limbo abduction

Wormed our way through  
Distant earth  
x 2

This intuition  
Limps with the cane of suspicion  
Folding space in the crease  
Of this page  
It takes the weight out of this  
It takes the weight out of -  
Trickling the ticking of this  
Grandfather clock  
The opposition  
Can't feel the tentacle reach  
Suction cup the numb arms of the elderly

Pattern against user - dilated  
Bastard waiting for nothing  
Circus carny guarding  
The gates of heaven  
Like stuck in limbo abduction

Wormed our way through

And if this clock keeps ticking away  
Will time be hesitated  
Of all the minutes that were taken away  
Will your watch be waiting  
Sand falls through  
Time portals  
These landfills - immortals  
And if this clock keeps beating down  
Let the branded time keep playing  
Of all the minutes that were taken away  
Will your watch be waiting

The gates of heaven  
Like stuck in limbo abduction
