

# Ataris, Let It Burn

Ataris  
Let It Burn  
Let It Burn  
Knowledge is key.  
You can never know too much.

Well I won't let them  
Keep me from learning all I can.  
Public schools just stand up.  
The system feeds our minds.

Did the system tell you about democracy?  
The same system that supported slavery?

When we try to make a change  
To lock us up and throw away the key.

I won't let you  
Play me for a fool

But I cant pray in school.  
Make a decision for yourself  
Don't bother with any trends  
Open up a book  
And share the knowledge with your friends.

Did the system tell you about democracy?  
The same system that created slavery?

When we try to make a change  
To lock us up and throw away the key.
