

Ataris, Make it last

There's a lot on my mind
so I guess that I'll take it one thing at a time,
still sometimes I can't help but wonder why...
I sit around all day
and I waste my whole damn life away,
still thinkin' bout' just what there is to say.
Should I say goodnight???
...got to bed, turn out the fucking light
and leave you shining in the past.
Should I try and forget???
...even though next week it's something I'll regret.
Or, should I try and make it last?
I think about the day
when I felt you'd throw it all away
to try to make me feel like I'm the one.
You were my best friend,
and I never ever thought those days would end
but now it seems like they are gone
What more can I say???
...I never wanted it to be this way,
And where the hell is yesterday???
...We sure had a blast!
I'm sorry that we're living in the past,
should we try and make it last?
