

ATB, I Don't Wanna Stop (Radio Edit)

Hey, there I hope every thing's alright
I forgot to call you in the winter time
Like the waves crash coming right
I've got feelings pouring down against the ceiling
While you try to trace which side I'm on
When the wind blows between us
High above this empty feeling
I don't wanna stop, I don't wanna stop
When the waves crash beneath us
Down below this empty feeling
I don't wanna stop, I don't wanna stop
Can we dance like every thing's alright
Can we trade the day in for the night
Like a homesick tunneling
I'm not breathing till I leave with you believing
I don't wanna trace another song

When the wind blows between us
High above this empty feeling
I don't wanna stop, I don't wanna stop
When the waves crash beneath us
Down below this empty feeling
I don't wanna stop, I don't wanna stop
I don't wanna stop, I don't wanna stop
When the wind blows between us
High above this empty feeling
I don't wanna stop, I don't wanna stop
When the waves crash beneath us
Down below this empty feeling
I don't wanna stop, I don't wanna stop
