

# ATB, I Don't Wanna Stop (Radio Edit)

Hey, there I hope every thing's alright  
I forgot to call you in the winter time  
Like the waves crash coming right  
I've got feelings pouring down against the ceiling  
While you try to trace which side I'm on  
When the wind blows between us  
High above this empty feeling  
I don't wanna stop, I don't wanna stop  
When the waves crash beneath us  
Down below this empty feeling  
I don't wanna stop, I don't wanna stop  
Can we dance like every thing's alright  
Can we trade the day in for the night  
Like a homesick tunneling  
I'm not breathing till I leave with you believing  
I don't wanna trace another song

When the wind blows between us  
High above this empty feeling  
I don't wanna stop, I don't wanna stop  
When the waves crash beneath us  
Down below this empty feeling  
I don't wanna stop, I don't wanna stop  
I don't wanna stop, I don't wanna stop  
When the wind blows between us  
High above this empty feeling  
I don't wanna stop, I don't wanna stop  
When the waves crash beneath us  
Down below this empty feeling  
I don't wanna stop, I don't wanna stop
