

ATB, The Days

Lets take the long way home tonight
just cruise along the boulevards
lets shine a little, were the street lights
and dream ourselves away to mars
lets follow all the stars above
or maybe take the subway home
these days are mine
and im gonna take it slow
like the peaceful waters flow
ill make it up as i go
thats all i really know
so lets take the long way home
lets cry a little if we wanna
or laugh out loud the best we can
lets meet the comfort of convenience
and search a silence deep within
lets stay a while and take it easy
if thats something you can overcome
lets take a minute just to slip away
and linger here before its gone
these days are mine
and im gonna take it slow
like the peaceful waters flow
ill make it up as i go
thats all i really know
so lets take the long way home
