My Heart Beats Like A Dum
I close my eyes
Close the door
I won't worry anymore
I've been waiting for you
Everyday and everynight

Cut the light Let it fade I don't wanna be afraid I've been waiting for you

Tonight it is right
Stars shine bright
I just really wanna be with you
I celebrate pray for the day
When all my wishes will be coming true

My heart beats like a drum like a drum Dam dam dam - dam dam dam And my feet step the beat like a drum Dam dam dam - dam dam dam

I think of you everyday I've been waiting for a call Just the sound of your voice Anytime and anyway Dream of you since that day When i saw you the first time At the heart-rock-cafe

Tonight is bright
Stars shine bright
I just really wanna be with you
I celebrate pray for the day
When all my wishes will be coming true

My heart beats like a drum like a drum...

I close my eyes close the door I won't worry anymore I've been waiting for you

And my feet step the beat baby...

Chorus...
