

# Ateed, Come To Me

You're standing out in the rain  
Trying to find the one to blame  
Control and hope has been gone  
To free your mind is a thing you should know

Ooh gotta let go  
Ooh, you gotta let it go

Come to me come to me  
Give you all that you need  
What you want  
What you feel  
What you get  
What is real (2x)

I know it's hard to be real  
Sometimes when no one cares what you feel  
But there's a thing you should know  
Follow what you think and you will grow

Ooh gotta let go  
Ooh you gotta let it go

Come to me come to me  
Give you all that you need  
What you want  
What you feel  
What you get  
What is real (2x)

Come on, come on, come on  
Come to me, yeah  
Come on  
Come over here

I know it's hard to be real  
At times when no one cares what you feel

Oh gotta let go  
Oh, you gotta let it go

Come to me come to me  
Give you all that you need  
What you want  
What you feel  
What you get  
What is real (4x)
