

# Athena Cage, Until You Come Back

Last night I cried and cried  
myself to sleep.  
and I haven't been to work  
one day this week.  
oh no.  
you probably think I'm kinda crazy,  
but I'm just crazy about you baby.  
and I know 'cause it's time to get over you.

I don't really wanna see nobody.  
I just wanna stay right here.  
?? wait for you  
for you to come back to me.  
won't somebody tell me please,  
when will I get through this phase  
things you say won't be the same,  
until you come back to me.

what would my friends think,  
if they saw me like this.  
they think i'm always the one so in control.  
but you got me chasing a dream  
that would never be.  
and I know I gotta get over you.

I don't really wanna see nobody.  
I just wanna stay right here.  
?? here and wait for you  
for you to come back to me.  
won't somebody tell me please,  
when will I get through this phase.  
things you say won't be the same,  
until you come back to me.

Don't make me leave it behind,  
what we had boy.  
'cause darling you'll never find,  
a love that's truer than mine.  
maybe one day you'll see,  
that my love was true.  
please tell me why,  
why did you leave.

I don't really wanna see nobody.  
I just wanna stay right here.  
?? here and wait for you  
for you to come back to me.  
won't somebody tell me please,  
when will I get through this phase  
things you say won't be the same,  
until you come back to me.

I don't really wanna see nobody.  
I just wanna stay right here.  
?? here and wait for you  
for you to come back to me.  
won't somebody tell me please,  
when will I get through this phase  
things you say won't be the same,  
until you come back to me.
