

Athenaeum, Comfort

In the daydream I once had
You were standing oh so sad
But the way you smiled at me
Made me laugh so awkwardly

And if you ever feel uptight
I'll make you wholesome
And I'll make it right
And if you ever fall on your knees
Give me comfort in a bottle please (2x)

Though I can't recall your name
I remember just the same
And you seem so far away
But I feel you everyday

And if you're ever feeling down
Just look me up
And I'll be around
And if you ever fall on your knees
Give me comfort in a bottle please (4x)

In the daydream I once had
You were standing oh so sad
But the way you smiled at me
Made me laugh so awkwardly

And if you ever feel uptight
I'll make you wholesome
And I'll make it right
And if you ever fall on your knees
Give me comfort in a bottle please(4x)
