

Athenaeum, Frozen In Time

He only left this world about a year ago
With nothing but a widow and the kids he'll never know
He could come back again
But only as a younger friend and that's the way it goes

She wrote the book on how to fall in love
When nothing in the world could make her fall in love
Now she's on her hands and knees
Writing her apologies to a God above

Wherever we are we're frozen in time
There's a pathway to heaven that we couldn't find
Are we doomed to repeat this circle of life?
Frozen in time

He's got a plan to make himself complete
To earn enough money so his family can eat
But what makes a man a man
If he's doing the best he can on his own two feet

Wherever we are we're frozen in time
There's a pathway to heaven that we couldn't find
Are we doomed to repeat this circle of life?
Frozen in time

She's got a big degree in the field of life
But she never got used to being a second wife
Boy she really missed the dance
But she's gotta get a second chance in the afterlife

Wherever we are we're frozen in time
There's a pathway to heaven that we couldn't find
But I will not repeat this circle of life
Frozen in time
