## Athenaeum, Frozen In Time

He only left this world about a year ago With nothing but a widow and the kids he'll never know He could come back again But only as a younger friend and that's the way it goes

She wrote the book on how to fall in love When nothing in the world could make her fall in love Now she's on her hands and knees Writing her apologies to a God above

Wherever we are we're frozen in time There's a pathway to heaven that we couldn't find Are we doomed to repeat this circle of life? Frozen in time

He's got a plan to make himself complete To earn enough money so his family can eat But what makes a man a man If he's doing the best he can on his own two feet

Wherever we are we're frozen in time There's a pathway to heaven that we couldn't find Are we doomed to repeat this circle of life? Frozen in time

She's got a big degree in the field of life But she never got used to being a second wife Boy she really missed the dance But she's gotta get a second chance in the afterlife

Wherever we are we're frozen in time There's a pathway to heaven that we couldn't find But I will not repeat this circle of life Frozen in time
