

# Athlete, Vehicles & Animals

It's the simple things like the robots Stevie G draws  
And the ease with which we seem to pull those tricks  
There are moments of escape for every one of us  
And the beauty in the times that we create

I saw you smiling...  
And I need my vehicles and animals  
And I will be alright  
Take me back to nineteen seventy nine  
So I can find my open eyes

He can play all by himself for many hours  
I have never seen a kid who's so content  
There is nothing from the outside that can touch him  
'Cause he's just learning how to be alone with one

I saw you smiling...  
And I need my vehicles and animals  
And I will be alright  
Take me back to nineteen seventy nine  
So I can find my open eyes  
And I need my vehicles and animals  
And I will be alright  
Take me back to nineteen seventy nine  
So I can find my open eyes

Lying down on my bed  
I just got another kick to the head  
Oh yeah you're a part of me  
Yet another branch on the family tree  
Salt on my fingers salt in my cuts  
Salt on my face and salt in my guts  
It's been a battle but we've come through OK  
Stop what you're doing and play

'Cause we've got our vehicles and animals so  
We're gonna be alright  
There's no need for us to go back in time  
Because we've found our open eyes

We've got our vehicles and animals  
So we're gonna be alright  
There's no need for us to go back in time  
Because we've found our open eyes
