

Athlete, Wild Wolves

As a friendly fire wasn't quite enough you go and drop this bomb on us
The devil stood there drenched in sand
I'm here to give you a helping hand
Oh
Wild wolves always stare me out
I'm not running
I'm not running away
And the desert brought news from the West
This could be your biggest test
Oh
So grab your gun and your survival kit
We're gonna get through the very worst of this
So wild wolves always stare me out
I'm not running
I'm not running
Wild wolves always stare me out
I'm not running
I'm not running away
And my soul is a dark place but I know your love
I know your love
My soul is a dark place
And my soul is a lonely one and I'm not alone
I'm not alone
My soul is a lonely one
I'm not alone
I'm not alone
Oh
Wild wolves always stare me out
I'm not running
I'm not running
Wild wolves always stare me out
I'm not running
I'm not running away
