

Athlete, Wild Wolves

As a friendly fire wasn't quite enough you go and drop this bomb on us

The devil stood there drenched in sand

I'm here to give you a helping hand

Oh

Wild wolves always stare me out

I'm not running

I'm not running away

And the desert brought news from the West

This could be your biggest test

Oh

So grab your gun and your survival kit

We're gonna get through the very worst of this

So wild wolves always stare me out

I'm not running

I'm not running

Wild wolves always stare me out

I'm not running

I'm not running away

And my soul is a dark place but I know your love

I know your love

My soul is a dark place

And my soul is a lonely one and I'm not alone

I'm not alone

My soul is a lonely one

I'm not alone

I'm not alone

Oh

Wild wolves always stare me out

I'm not running

I'm not running

Wild wolves always stare me out

I'm not running

I'm not running away
