

ATL, No More

She don't love me no more...

[Verse 1]

I remember our last night

Cruisin' in my ride

We were sitting in the car she looked into my eyes

An' said "I love u"...(I love u baby)

"I'm gonna miss u"...(Gonna miss u so much)

Now everything (thing) it was cool (cool)

But the 1st, 2 weeks

(Call me on, on my fone, said that she, misses me)

Now it seems, that as of late

She's always, on the go

I kno she's startin', another life

But lately I'm, feeling like..

[Chorus]

Feel like she don't want...want me no more

Said I feel she don't need...need me no more

Said I really don't kno tha deal

As the days go by I feel

That the one I love don't love...love me no more

[Verse 2]

Now don't u say I've got it wrong (don't u tell me I got it wrong)

Cos when I call u on the fone (u kno how it is)

Ur either asleep, ur not at home, or u don't, have time to talk

So why don't chu tell me, what's goin' on, cos ur breakin' my heart

And girl u act like u don't care

Tell me what, is goin' on down there

And that I can't meet, ur new friends, I dnt even kno where u live

Cos u won't even let me come see u for tha weekend...whoa...oh...

[Chorus]

Feel like she don't want...want me no more

Said I feel she don't need...need me no more

Said I really don't kno tha deal

As the days go by I feel

That the one I love don't love...love me no more

What's goin' on with us man...

[Bridge]

Now I love that girl so much

It's gotten hard to letting her go

She's always on my mind, all the time

Jus last week I called her on the fone, an i said:

[Taken from Aaliyah's "I Miss U"]

(It's been too long and I'm lost without u)

What am I gonna do

Said I've been needing u, wanting u

(Wondering if ur tha same and who's been with u)

Is ur heart still mine, I wanna cry sometimes

I miss u...

[Chorus to fade...]
