

# Atlantic Popes, Talktalk

Sit down release your thoughts  
From their cage  
How does it feel to be the book  
And not the page...

Talktalk no use in talk  
I don't need words to say  
If I was to talk to you  
About the tunes in my mind

Talktalk anyway anyhow and anyday  
Trying to make it all sound the right way  
You could be in a cloud or a crowd or your lover

I'm living on the side of dawn a night away  
I need no other words for saying  
I'm living on the side of dawn another day  
I don't need any words for staying

Talktalk no use in talk  
You don't need words to say  
If you were to talk to me  
About the tunes you've got in your mind

Talktalk anyway anyhow and anyday  
Trying to make it all sound the right way  
You could be in a cloud or a crowd or your lover

I'm living on the side of dawn a night away  
I need no other words for saying  
I'm living on the side of dawn another day  
I don't need any words for staying  
I need no other lies in my world  
I need no other words in my life  
I am staying  
I need no other lies in my world  
I need no other words in my life  
I am staying
