

# Atmosfear, Own control alone

Atmosfear

Miscellaneous

Own control alone

You walked into my world and you made my life complete

next time you come around I won't leave you alone

See this once my way and I know you'll understand,

for me it's just the life that I'd like to lead

It doesn't make the pain go away -try just once to see things my way.

Chorus:

'cause it feel so good to be on your own

yes it feel so good to be in control

'cause whenever you were here you just made me sit and stare

so it feel so good to be on your own

We've had this fight before and I don't want to hear anymore, do you feel the same as I, have you seen

It doesn't make the pain go away -try just once to see things my way.

Chorus:

'cause it feel so good to be on your own

yes it feel so good to be in control

'cause whenever you were here you just made me sit and stare

so it feel so good to be on your own.
