

# Atom And His Package, Punk Rock Academy

I was fighting the mold in my bowl with my pee,  
when a thought popped into my brain.  
If all of us hated high school so much,  
why was nothing ever changed?  
So i called brian up, with my plan that's red hot.  
It was a private institution in the name of punk-rock.  
We got some government funding,  
and our own private road,  
and 666 for our radio snow code.

I had a dream, when I was in high school  
That I attended, the punk rock academy.  
I had a dream, when i was in high school,  
That I attended the punk rock academy.

Chris jensen's teaching science & he's still running mountain.  
We fired the guy from bad religion cuz he sold punk rock out,  
and we'll give the dirty punks a dip & get rid of all their fleas.  
And we'll never ever buy anything with a UPC.

I had a dream, when I was in high school  
That I attended, the punk rock academy.  
I had a dream, when I was in high school,  
I was at the punk rock academy,  
and no one made fun of me.

The punk rock academy.  
Where all the students,  
they're diagnosed with ADD.  
Take me home tonight.  
I don't wanna let you go til the feelin's right.  
Take me home tonight.  
I don't wanna let you go til the feelin's right.

We'll import a token jock, & then we'll kick his token ass!  
And there will never ever be a physical education class!  
Think about it and you'll agree.  
It's the bizzity bizzity bomb!  
& maybe we can get assuck to play the senior prom!
