Atom Tha Immortal, Apocalypse Thought

Energetically I strive/ To live/ What I poetically deliver/ Leaving your brain waves in mental rivers/ Of Abundance/ Logic encompasses my thought/ Reign supreme/ In philosophical wars fought/ Leaving unscathed/ I reach the unsaved/ I preach and teach/ With punchlines, and dope rhymes/ Mental fire starter/ Pouring out lines like Holy Water/ In this rap Crusade you'll be a martyr/ You better try harder/ If you want to touch this/ Cause I rip MCs with power like Caesar Augustus/ I thrust this/ Sword into your chest/ You'll be leaving my sight/ Yeshua now confessed/ As your Savior/ You'll be like Saul turning to Paul/ Either that/ Or you'll get cut in half like Darth Maul/ Verbal fury is my vengeance/ Grab mics and rock them/ Keep mental razor sharp like Occam/ Doing experiments in space/ The only one who's been disqualified/ From running in the Human Race/ Because I frighten with what I'm writing/ Or it can be because I am half-man and half-titan/

Chorus:

Simplicity of my theory/ Revolutionary thought/ I make you brain get hot/ With fire from my ideologies/ And my philosophies/ The MC, who's escaped from the cave of Socrates/

I battle dragons/ And wrestle with fallen angels/ A character in G-d's imagination/ I'm tracing/ My geneology back to Aragon in Spain/ My mic's like a battle axe/ Swinging it bringing pain/ Revealing things/ From an unseen King/ I travel mentally into the realm of G-d/ ...Transfiguration into the G-d matrix/ I'd even take mics from the end of Eurythmics/

(Chorus)

I tear mountains/ And I shatter them to pieces/ You spar with my gladiator type thesis/ I never ceases/ To amaze the masses/ I devastate/ Verbal thunderclaps emanate/ Collapse windpipes/ My throat releases hurricanes/ Cause disaster/ Shouldn't have stepped to Mic master/ Physical smasher/ I shatter bodies like they're plaster/ ...Falling to the floor/ Chemical war/ Are you prepared?/ The second coming of G-d is soon/ Spit typhoons/ I got more (w)raps than a battle wound/ You're doomed son/ From my lyrical rail gun/ The rap sniper/ Hypnotizing like the Pied Piper/ Hyper viper/ Delighting in mesmerizing/ Exciting, but never biting/ Verbal fighting/ Exercising exorcisms of my lyricism/ In ancient writing/ Prometheus/ Better known as Atom tha Titan/ Chitin/ My exoskeleton surrounds me/ Crown found on mythical ground/ My sound pounds thee/ I reign on Spiritual, Biblical, Lyrical/ Mic terrorist/ I transcend even the Transcendentalists/ The poison kiss/ Spitting venom when I rap/ Enters into your skin/ Neurological attack/ Where's you cream black?/ I react with lyrical facts/ Causing miracles/ Like Rasputin healing hemophiliacs.
