

# Atom Tha Immortal, Nazca

From the black heart of Peru/  
Atom'll strike violent/  
To leave bystanders to stagger in stages of silence/  
.It's the verbal essence of weaponry/  
Superior intellectual clarity/  
Manifesting my rarity/  
I'm like a spacetime singularity/  
When I shine/  
Molding thoughts/  
Of all ethereal portions/  
Like Adam pouring/  
Out forces that formed heavenlies/  
..Mapping Hebrew letters and sounds from their energy/

## Chorus

-----  
Thoughts are sacred like the Hebrew Signs/  
&quot;I'm like Einstein, 150 times magnified/  
Nikola Tesla, and John Von Neumann/  
All wrapped up in the body of one human.&quot;/  
Thoughts amazing like the Nazca lines/  
&quot;I'm like Einstein, 150 times magnified/  
Nikola Tesla, and John Von Neumann/  
All wrapped up in the body of one human.&quot;/

Your normal thought can't even battle me/  
I drastically alter anatomy/  
Of humanity's previous intellectual thought capacity/  
Capturing lyrics/  
..a grammatical matador/  
My renditions a premonition/  
Of violent visions of War/  
Warriors of the sword/  
Lyrical munitions piercing the core/  
Of dragon skin, like the weapon of St. George/  
..You want to follow count the cost/  
Me and my crew are forced to war daily with soldiers of Satan's/  
Bringing truth to your mosque/  
Of Yeshua's physical death on a cross/  
And resurrection/  
..Mic Comprehension/  
Is so deep, it'll shatter the thought of the normal thinker/  
Move through the valley with songs of the Inca/  
..Talk in intervals, spilling my ill thoughts/  
...Iller than an animal minus immune response/  
Iller than the leprosy cells giving you skin spots/  
Iller than the plague that spread during the Renaissance/

## (Chorus)

Glory to Yeshua HaMashiach/  
The Risen/  
Iron and Steel Scepter/  
Walking this earth like a leper/  
With scars from a Roman regiment/  
Whipping with glass, leather, blades, and steel/  
Embedded and tethered to sever the flesh/  
..But my flesh, buried my body in pleasure/  
Till I walked the earth with the animal heart of Nebuchadnezzar/  
Animal soul/  
Controlling my ethereal goal/  
..Making me walk contrary to the Gospel of old/  
.The wisdom of G-d's scrolls/  
Greater than gold/

And greater than riches foretold/  
Through the prophets of G-d's fold/  
..Greater than the world you can gain by losing your soul/  
Rubies and diamonds cannot compare/  
.The true worth of an adam/  
Is only fathomed when the design is analyzed/  
Refuting of self-organized organic lives/  
Spontaneous generation is false/  
..So I hit you with a mind/  
Deeper than darkest regions of Sheol/  
With neural kinetic patterns more energetic than Neo.
